

White Hall Day Care (WHDC) LTD was established in the year 1974. It was in the year 1995 when Dr. Manju Tandon took over the ownership of White Hall organizations, and dedicated her life (1995 -2012) to provide the best possible childcare to the Edmonton parents. Her management style, vibrant and helping nature, and wisdom made White Hall centers a preferred choice among parents.

Manju's visions and caring qualities were further enforced by the support of Ms. Ragini Udawadia (2006 - 2014), whose dedication, unlimited support, administrative capabilities and the knowledge further enhanced our childcare quality. Her wisdom and the confidence put us in a standing to provide the best, comforting, and healthier care to your children.

Since then WHDC is proudly serving two communities in Edmonton; the West Edmonton (15450 - 105th Avenue) and North Edmonton (3304 - 119th avenue).

Current leadership is provided by Mrs. Zarqa Mian, our General Manager and the Director of

the Northend location, and Ms. Neera Kaur, who is leading the West end location. Their dedication and extensive childcare initiatives have added further stability and quality to the White Hall organization. 'Beyond current' vision from our leaders, hard work from our highly qualified staff members and ongoing pursuit to improve our services have earned both centers an "accredited status" from the

Government of Alberta since the start of the accreditation program. Under an experienced governance and caring management, we are capable to offer high quality childcare services for both Daycare and Out-Of-School Care children, from newborns - 12 years of age.
