Memo to all parents

July 8, 2020

Dear Parents,

As you know, our first critical objectives are to provide a caring, safe environment and fun-filled activities at all times to each and every child that is under our care. Our staff members are working very hard to meet these objectives. To stay on top of these goals, we need your full cooperation and understanding as well.

The businesses and workplaces are reopening and the numbers of new cases of Covid-19 patients are once again being reported. To avoid any risk to our children and staff members, we are asking all our staff members and the parents to provide their *daily information* correctly on the Covid-19 info form and sign it. It is mandatory that you provide each and every information correctly. We will also record daily temperatures of each and every person entering the daycare facility. If any response indicates the risks to other children, or potential for a possible infection to others, we will temporarily suspend the care of the related child, ask the parent to get themselves and the child tested immediately, quarantine for 14 days, and provide us the test reports for further consideration.

We are sorry if this causes you any inconvenience, but we hope you will consider the safety of others as crucial as your own, which is our first goal. We look forward and thank you for your support.

Sincerely,

White Hall Management
