Thought of the Month and Song: HEALTHY EATING HABIT

Children model adult behavior. If healthy eating habits are being modeled, children will pick up these habits. There will be less stress and conflict at the table. Parents you are your children's Number one teacher. Include them in meal preparation. They enjoy being in on the action spending quality time with you. Children are more likely to eat what they had a hand in making.

LONDON BRIDGE, IT'S SPRINGTIME.

Leaves are growing on the trees,
on the trees, on the trees;
Leaves are growing on the trees,
It is springtime.
Watch the birds build their nest,
Watch the flowers start to grow,
It is springtime.
