APRIL 2025

Reflection on March 2025

A few events from both centres demonstrating wonderful experiences of our children filled with creativity, learning, and festive cheer in both centers are provided below.

Canora: Science Week. Through hands-on experiments and activities, children learnt about the scientific principles of 'three phases of water' and 'making colorful bubbles'. A highly interactive and engaging activity filled with questions ensured their brains were curious, experimental skills were amazing and mighty explorations amazing.

Free-lance Painting. Children explored their creativity, emotions and expressions with brushes and colors, which filled the room with beautiful masterpieces. It was a huge success! Every piece was amazing. We are delighted to showcase their wonderful paintings on the walls for everyone to admire.

St. Patrick's Day. Children engaged in festive craft activities. They created various pieces from colorful shamrocks to leprechauns and rainbows. The celebration brought a lot of smiles and laughter.

Northend: First and foremost, we had a visit from our **licensing officer**, which went **great!** We are fully compliant with all regulations. **Hurray!** The report is posted on our bulletin board. Kudos to all staff for their hard work and quality care.

Cooking Classes. The kids learnt valuable baking skills. The whole process was wonderful, exciting and highly engaging. What a skill-enhancing experience.

St. Patrick's Day Celebration. children participated in creative and themed activities, explored crafts and games related to the festival that contributed to fun.

Ramadan. Our children enjoyed nice feast on March 31 to celebrate Eid and participate in a grand multicultural festival.

Free Play. Children 'rejuvenated their energy and thoughts', interacted with each other in a relaxed setting. If a parent wants a specific activity, please see the Director.

WHAT'S UP FOR APRIL 2025

We're excited for the upcoming month and all the wonderful activities we have planned for the children. In April, we will be hosting several exciting events and festivities. A few unique ones are provided below.

1. **Multicultural events** will be held to help children learn more about different cultures and traditions. One of the highlights will be our **Easter Celebration**, where we'll engage in fun and festive activities, followed by a **Vasakhi Celebration** to explore the vibrant traditions of another culture from India.
2. **Gardening activities.** Spring is here, and this hands-on experience will not only teach about the beauty of nature and springtime to our children, it will also provide them with an opportunity to explore teamwork, patience, and responsibility as they care for their own little plants.
3. **Oxygen rounds.** The trees and plants will be blooming enriching our environment with more oxygen. We will take this opportunity to take our children on outdoor rounds, explain them about the science of the nature and how it helps us grow healthier.

Additional activities and opportunities to explore, grow and celebrate diversity will be provided for children while having fun with these engaging activities. As always, feel free to reach out if you have any questions or you would like more details.

Please note, White Hall will be **closed on April 18th, 2025, for Good Friday** and on **April 21st, 2025, for Easter Monday**.
