April 2026

Warm & Uplifting Theme for February

*This February, we had added focus on the E.R.O.E.S — showing **Empathy**, **Respect**, taking **Ownership**, staying **Engaged**, and practicing **Self-Control** in every moment with our children and each other.*

Reflection on the Previous Month

Canora:

As we end March, we'd like to reflect on the wonderful and exciting celebrations and activities we've had during this month which were filled with creativity, learning and festive cheers!

St. Patrick's Day was full of enjoyment and excitement.

Our children had a fantastic time creating various pieces to celebrate it - from colorful shamrocks to leprechauns and rainbows crafting that brought a lot of smiles and laughters as the children engaged. Their creativity truly shone through in every act.

Science Week was a great opportunity for the children to explore the wonders. Through hands-on experiments and activities, they learned about scientific principles in a fun and engaging way. It was amazing to see the children's curiosity spark as they asked questions and explored together.

Our Free Painting Week was a huge success! Children truly explored their creativity with brushes and colors. We are delighted to showcase their wonderful paintings on the wall for your admiration.

Northend:

We had an exciting and productive month at the Center! We had our **licensing visit**, which went **smoothly and great!** We're happy to report we are fully compliant with all necessary regulations. For transparency, the report is posted at the entrance for all parents to read.

We held some **cooking classes** for children, which really engaged them with cooking process and valuable learning skills. It was fun-filled, exciting and a huge success!

Finally, we provided ample time for **free play activities**, where children could explore and interact with each other in a relaxed setting. It's always a joy to see them exploring leisure moments.

WHAT'S UP For April 2026

We're excited about all the wonderful upcoming activities that we have planned for the children!

In April, we will be hosting **multicultural events** to help the children learn more about different cultures and traditions. One of the highlights will be our **Easter Celebration**, where we'll engage in fun and festive activities, followed by a **Vakshi Celebration** to explore the vibrant traditions of another East Indian culture.

As you all know, it's Springtime. We'll be introducing **gardening activities**. This hands-on experience will not only teach the children about the beauty of nature and springtime but also give them the opportunity to explore teamwork, patience, and responsibility as they care for their own little plants.

We're looking forward to providing more opportunities for the children to grow, explore, and celebrate diversity while having fun with these engaging activities. As always, feel free to reach out if you have any questions or would like more details.

Please note, Daycare will be closed on Friday 3rd April 2026 for Good Friday and Monday 6th April 2026 for Easter Monday.
